GIN OF THE MONTH

ROKU Gin

The Atelier owns four distinct types of pot stills and, in a process unique to ROKU, the botanicals are distilled separately according to each feature of botanicals to extract the best flavour and maintain their individual characteristics. For instance, the delicate scent of cherry blossom is drawn out through vacuum distillation in stainless pot stills, whereas the deep flavour of yuzu is achieved by distillation in copper pot stills.

ROKU's complex, yet harmonious flavour is the result of the unique Japanese sensitivity captured

in the blending of the carefully crafted extracts of the 14 botanicals.

The six natural Japanese botanicals are embossed on the hexagonal bottle that symbolises ROKU (which means 'six' in Japanese).

The bottle label is printed on washi paper, further highlighting Japanese craftsmanship and sentiment.
